Education

Gandhi Academy of Technology and Engineering	**Sep. 2020 – May 2024**
Bachelor of Technology in Computer Science Above 8CGPA	*Berhampur, Odisha*
Roland Junior College	**Mar. 2018 – Mar 2020**
+2 Higher Education Science with 52%	*Berhampur, Odisha*

Technical Skills

- HTML5
- CSS
- JavaScript
- React JS
- Bootstrap
- Adv Java
- Oracle
- Core Java

Experience

CODE-CLAUSE   **Jun 2024 – July 2024**
Java Developer Intern   *Remote*

- Collaborated on the development of a web-based inventory management system using JavaEE, Adv.java, HTML, CSS,JAVA SCRIPT, and oracle data base.
- Implemented new features and resolved bugs in existing codebase, contributing to the successful delivery of project milestones.

CODE-ALPHA   **April 2024 – May 2024**
Java Developer Intern   *Remote*

- Collaborated on the development of a web-based inventory management system using JavaEE, Adv.java, HTML, CSS,JAVA SCRIPT, and oracle data base.
- Participated in daily stand-up meetings and sprint planning sessions following Agile methodologies.
- Conducted code reviews and provided feedback on peers' code to ensure adherence to coding standards and best practices.
- Explored advanced Java topics through online courses on Coursera, including "Advanced Java Programming" and "Java Performance Optimization."

PRODIGY-INFOTECH   **March 2024 – April 2024**
web Development Intern   *Remote*

- Assisted in development of the front end of a mobile application for iOS/Android using HTML, CSS, JavaScript and theBootstrap framework.
- Worked with Google Sheets to manage user inputted data across multiple platforms including web and mobile apps.
- Collaborated with team members using version control systems such as Git to organize modifications and assign tasks.
- Utilized Visual Studio as a development environment in order to visualize the application in both iOS and Android.

Projects

Employee Management System | *Core java, Adv. java, HTML, JavaScript, SQL*   **Jun 2024**

- Developed RESTful APIs using [Backend Technology, e.g., Node.js with Express] to handle CRUD operations for employee data.
- Integrated [Database Technology, e.g., MySQL, MongoDB] for data storage and retrieval.
- Implemented user authentication and role-based access controls for secure data management.

Travel Itinerary Planner | *Core java, Adv. java, HTML, JavaScript, SQL*   **May 2024**

- Create a travel itinerary planner that allows users to input destinations, dates, and preferences to generate a detailed travel plan.
  -Include features like maps, weather information, and budget calculations. Developed a simple AI bot using JavaScript to interact with users.
- Implemented backend algorithms for itinerary generation based on user preferences, destination constraints, and real-time travel data using Java and Oracle databases.

Hotel Reservation System | *Core java, Adv. java, HTML, JavaScript, SQL*   **April 2024**
- Build a hotel reservation system where users can search for available rooms, make reservations, and view booking details. Include features like room categorization and payment processing.
- Explore the historic landmarks of the Old Town, including the iconic Cathedral of Santa Maria and the medieval Alcazar fortress.
- Take a leisurely stroll along the picturesque waterfront promenade and enjoy panoramic views of the harbor and coastline.
- Immerse yourself in the vibrant cultural scene with a visit to the Modern Art Museum or catch a live Flamenco performance at a local theater.

Portfolio Website | *HTML, CSS, JavaScript*   **April 2024**
- Created an Android and Desktop website using React and Tailwind CSS to look Great.
- Utilized tailwind to create a UI for the website in order to allow different scenes to interact with each other.

Weather App | *HTML, CSS, JavaScript*
March 2024
- Designed a simple UI using HTML and CSS to simulate the website.
- Utilized Bootstrap to create a UI for the website in order to allow different scenes to interact with each other.
- Successfully engaged users with timely and accurate weather information
- Expanded knowledge of JavaScript programming and API integration
- Incorporated user feedback for iterative improvements to the app

Relevant Skills

Languages: Java, C, Microsoft SQL Server,
Developer Tools: VS Code, Eclipse, NetBeans, Dev MS Excel, Dev SecOps tools
Technologies/Frameworks: GitHub, WordPress,spring

Training

FULL-STACK JAVA DEVELOPER   **Sep 2023 – Jun 2024**
Naresh I Technologies (Hyderabad)
- Proficiency in Java programming language for both frontend and backend development.
- Experience with frontend technologies such as HTML, CSS, JavaScript, and React.js.
- Understanding of backend frameworks like Spring Boot for building RESTful APIs and microservices.
- Knowledge of database management systems including MySQL and OracleDB.
- Familiarity with version control using Git and collaborative development workflows.

Personal Profile

➢ Name	:	Manish Maharana
➢ Date of birth	:	01-feb-2003
➢ Father's name	:	Santosh Maharana
➢ Nationality	:	Indian
➢ Marital Status	:	Un-Married
➢ Languages known	:	English, Hindi, Odia

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge. I bear the responsibility for the correctness of the mentioned particulars.

Manish Maharana

Place: Hyderabad.   **Name: Manish Maharana**
